Subject: Fwd: Los Alamos County Interest in Federal Hydropower Allocations
Attachments: Los Alamos County Interest in Federal Hydropower Allocations; Fwd: FW: WAPA Interest Letter

Mr. Keselburg,

Los Alamos County (LAC) operates a small municipal utility with a peak load ranging from 14 to 20 MW. LAC currently receives a small CRSP allocation

and is very interested in acquiring Post 2009 Loveland Area Project Power. LAC has a contract with WAPA CRSP to deliver LAC's 10 MW interest in the Laramie River Station

to New Mexico and is familiar with RMR and CRSP scheduling requirements. Please advise if LAC should provide additional data to qualify as a candidate for the new allocation.

Thomas L. Biggs
Deputy Utilities Manager, Power Supply
